

On Friday September 17, 2004, the FAA extended to deadline for submitting comments to this docket, FAA-2004-19825, to November 8, 2004. This extension was based on "multiple" early public comments.

Since that date, only three comments have been added to the public docket, including EAA's (11/5/2004).

EAA feels that it is highly possible the FAA has received other comments to this docket that have not been added to this public viewing site. This is because the docket requires the public to respond directly to FAA Airports Division, APP-500 - not to the DOT Docket office.

EAA requests that if the FAA Airports Division (APP-500) has received comments to this modification of Airport Improvement Program Grant of Assurances, that have not been posted to this public viewing site (the DOT docket), that they do so prior to the end of the public comment period.

This is the only way for the public to be fully informed of the actions the FAA might take in finalizing this modification document.

Randy Hansen
EAA Government Relations Director
